

## Bosch Celebrates 20th Anniversary of the Allegiant Video Control System

February 23, 2009

**Fairport, N.Y.** – Bosch Security Systems, Inc., a full-line manufacturer of high-quality security solutions, announces it has shipped nearly 30,000 Allegiant Video Switcher/Control Systems as the company celebrates the product family’s 20<sup>th</sup> anniversary.

Since the product’s launch in 1989, Bosch has introduced eight models of the Allegiant system over time. Bosch continually enhances the product family to meet the evolving needs of customers and end users – releasing the latest upgrade for the powerful LTC 8900 Series earlier this year.

The Allegiant Series enables display of video from any camera on any monitor connected to the system. It is an ideal fit for a range of applications from small to large – scaling to support upwards of 6,000 cameras, 500 monitors and 120 keyboards. These systems are installed in casinos, correctional facilities, airports, government facilities and in many other commercial and industrial facilities throughout the world. They are recognized by customers for their reliability – functioning consistently for up to 15 years at many locations.

For more information on the Allegiant Series of matrix switchers, visit [www.boschsecurity.us](http://www.boschsecurity.us).
