

BOSCH ADDS ENERGY EFFICIENT POWER SUPPLIES FOR CCTV PRODUCTS

June 3, 2008

FAIRPORT, N.Y. - Bosch Security Systems, Inc., a full-line manufacturer of high-quality security solutions, is adding the UPA Series Power Supplies to its product portfolio. The UPA Series provides energy efficient operation when used with Bosch series CCD, Megapixel cameras, keyboards and other professional surveillance products. The UPA 60 Hz models are designed specifically to meet the strict efficiency standards and laws being adopted in the United States. They meet or exceed the International Energy Efficiency Level IV requirements.

The small size and high energy efficiency rating of these power supplies also make them ideal for powering a wide range of other low-power security products including Allegiant® system accessories and control devices.

The UPA Series is available in 120 VAC, 230 VAC and 24 VAC models as well as 24 VAC, 15 VDC and 12 VDC secondary output models. Some models are equipped with screw terminals for easy installation.

For more information about the UPA Series Power Supplies, visit www.boschsecurity.us or call 800-289-0096.

About Bosch Security Systems, Inc.

Bosch Security Systems, Inc., a division of the Bosch Group, develops and markets a broad range of products and systems for security, video surveillance, life safety, personnel and asset tracking applications, as well as for communication and professional audio installations. Worldwide, Bosch Security Systems employs more than 10,700 associates and reported sales of \$2 billion in fiscal 2007. For more information, visit www.boschsecurity.us or call (800) 289-0096.

About the Bosch Group

The Bosch Group is a leading global supplier of technology and services. In the areas of automotive and industrial technology, consumer goods, and building technology, some 271,000 associates generated sales of 46.3 billion euros (over \$63 billion) in fiscal 2007. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in roughly 50 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than three billion euros for research and development, and applies for over 3,000 patents worldwide. The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering."

In North America, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial automation and mobile products, power tools and accessories, security technology, thermo-technology, packaging equipment and household appliances. Bosch employs approximately 25,000 associates in more than 80 locations throughout the U.S., Canada and Mexico, with reported sales of \$9.5 billion in fiscal 2007. For more information on the company, visit www.boschusa.com.
